A-M-S

## ABOUT US

We know from our experience in developing and post-conflict countries that any contracted program we undertake requires four key elements to be successful, these are:

- Leadership and Hands-on Management
- Proven Processes and Procedures
- Communications
- Accountability

We have delivered on these continually over the years. A-M-S Staff consist of highly knowledgeable and qualified managers with many years of cumulative experience operating in challenging environments.

## ETHICS

A-M-S recognize that success must be earned through hard work. Our "Can Do and Will Do" attitude in responding to client needs, coupled with the highest standards of professionalism is the key to our success and the foundation for the future.

Our ethical standards and shared moral values form the cornerstone of our ethos of uncompromising integrity. Our culture of honesty, accountability and professionalism go hand in hand when earning the trust and respect of those we serve.

A-M-S is committed to delivering professional excellence. As a company, we believe we can only honor our contractual and business obligations through dedication to our clients requirements and by adopting the highest professional and ethical standards.

A-M-S

## WORKFORCE

Our highly motivated and well trained workforce has achieved extraordinary results, ultimately supporting A-M-S in becoming the global leader in Automotive Fleet Management Solutions.

As a company we value and respect individuality, with new ideas and forward thinking being actively encouraged. We have a strong belief that every individual within the company is an integral part of our success.

## DEDICATED MAINTENANCE PROGRAMS

A-M-S offer complete maintenance and management solutions for large vehicle and equipment fleets operating in developing and post-conflict countries. We hold both past and present experience maintaining fleets in excess of more than 20,000 vehicles.

A-M-S

## DEDICATED MAINTENANCE PROGRAMS

A-M-S are focused on consistently providing the highest quality of services. We are the acknowledged experts for large fleet management programs. We hold a wealth of knowledge and experience gained through countless large-scale projects with both government organizations and private fleet operators. A-M-S utilize best practice proven procedures attainable only through real life experience.

## WORKSHOP MOBILIZATION

A-M-S has a dedicated Workshop Mobilization Team which is experienced and specialized in the design and mobilization of workshop facilities. Whether it is a project to set up a nation wide workshop network, or a small mobile field facility, from concept to completion we manage the project for you.

From the beginning we take the clients ideas, conceptualize them and provide rapid cost effective solutions to the customers requirements, ensuring maximum efficiency and capability to support the vehicle or equipment fleet.

When the project is fully mobilized A-M-S hand over control to the customer, whilst offering continuing guidance and support for as long as required.

A-M-S

## PRODUCT SUPPORT

A-M-S offer manufacturers and fleet operators the advantages of our technical support program, which provides innovative solutions for gaining critical information and feedback on vehicles and equipment under operational conditions. Our program delivers the vital information needed to minimize down time and keep fleets operating at their optimum capacity.

Trained professionals in the field provide concise, accurate data which can be viewed by the customer on a dedicated web portal that delivers real time information. The benefits of this program are the promotion of product integrity as well as increased safety, performance and product confidence.

In short a powerful platform that will ensure mission and equipment success.

## TRAINING SOLUTIONS

To assure a technically capable work force for our clients A-M-S offer individually tailored training programs for all disciplines of vehicle maintenance, fleet management and supply chain activities.

A-M-S have delivered these programs to organizations and companies operating in post conflict and developing countries for the last ten years, resulting in extensive experience and development of training programs and methods that work.

From Basic though to Advanced level A-M-S provide training solutions which ensure operational efficiency is optimized across all levels.
